Part 1. Before the Production

1. Customer Quote
2. Receiving Customer Order
3. Contract Review
4. Enter order in MRP System
5. Engineering
6. The cam-tool generation
Raw Material Releasing

- Shearing
- CNC (Computer Numerical Control) Drilling
- Plating Through Hole
- Dry Film Lamination
- Exposure
- Development
- Etching
- Stripping
- AOI (Automated Optical Inspection)
- Coverlay Pre-Lamination
- Hot Press
- Metal Finish
- Screen Printing
- Test
PCB Fabrication

The Follow-up

- Electrical Test
- Scoring (IF REQD)
- Fabrication
- Final Cleaning
- Final Visual Inspection
- QC And FAI Reporting
- Packaging
- Invoicing
- Shipping
